

Improving Patient Outcomes

through Application & Data Modernisation.

Enterprise-grade bespoke solutions that empower teams to deliver their best.

We understand that having the same objectives doesn't necessarily mean that you have the same approach. With years of experience in working with Clinical Registries, we will help make sense of the technical complexities, listen to your challenges, and design and deliver a solution that will give you the outcome needed to improve efficiency, visibility and reach your strategic goals.

Benefits

- ▶ Bespoke scalable and secure Cloud Native application & data solutions.
- ▶ Leverage your existing assets and IP, and our best-practice frameworks, to get off the ground quickly.
- ▶ Access the best technical expertise to overcome talent and experience gaps that prevent you from starting.
- ▶ Gain confidence with a well-architected enterprise-grade solution.

Aligned with your requirements.

Where do you need help? Let's build on what you already have, and solve for what you don't.

Collection

Simplify the data collection process. Easy to use web interface, data integration, and intelligent data cleansing and standardisation.

Reporting

Gain the insight and intelligence that you and your teams need to make confident decisions. Bespoke reports and dashboards.

Benchmarking

Integrate and sync data for benchmarking. Give yourself a clear birds-eye view to improve patient outcomes.

Other

Leverage best-in-class technology to solve challenges and redefine your approach. We won't shy away from a challenge.

"I can't imagine making a strategic technical decision without Playtime contributing their feedback. We are proud of the work that we've done together."

Delivering Outcomes

Bespoke solutions that enable you to deliver better health outcomes and experiences for all patients.

Capture patient experiences

Streamline and standardise captured data for reliability & confidence.

Treatment & process effectiveness

Determine treatment and procedural effectiveness with the right data & insight at your finger-tips.

Predict patient outcomes

Access intel. to identify factors to predict favourable and unfavourable outcomes

Monitor quality & trends

Continuously monitor the safety and quality of health care to patients.

Support distributed teams

Centralise systems to reduce the IT burden on smaller and distributed teams.

Foster Clinical Research

Support and lead improvements in outcomes, patient care and survival.

Benchmark for better outcomes

Access and contribute data to raise the standard of care across the industry.

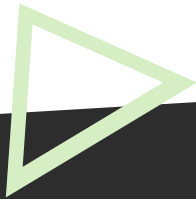

Governance & Security

Automate and enforce governance and security standards to reduce administrative burden.

On-the-pulse data & insights

Standardise and raise the quality of the data available. Gain access to real-time intel.

Customer Success

Collection & Reporting for finger on the pulse insight.

Data collection of over 200 hospitals across Australia and New Zealand. Bespoke web portal used to upload and centralise data collection. Customised reports and dashboards to assist in determining the clinical effectiveness of treatments/procedures.

Benchmarking for excellence in patient care and outcomes

Sophisticated bespoke benchmarking solution. Provides reliable and standardised data to benchmark and monitor trends in device failure and revisions, and survival over time. Shared data and insight fosters research to support the improvement in patient care and survival.

Our Approach

Our squad of industry and technical experts are on hand at every phase. Our approach is purposeful, streamlined, and we never shy from a challenge.

► Discover

Understand your requirements.

► Plan & Design

Design for success.

► Execute

Deliver only the best.

► Review & Improve

Scalability, agile and for the future.

Why Playtime Solutions?

Competitive Edge

Bespoke solutions that work for you, to empower and give you your edge.

We Come Prepared

Real industry experience and insight, coupled with technical expertise.

People Centric

Working with key stakeholders for a holistic and collaborative approach.

Bespoke doesn't mean starting from zero.

You are never 'starting from the beginning' when you're working with Playtime. We enable rapid innovation and agility, by remodeling legacy to Cloud Native, and preserving existing assets.

Every solution that we deliver is built from a solid baseline of knowledge, expertise, experience, and leverages cutting edge technology to drive the optimal outcome.

We give you a leg up to invest in your competitive edge through our proven best-practices, including the PlaytimeX Application framework and Squad Model,

Playtime DevOps/SRE pipelines and practice
